TRACK LIGHT-CD

20W

Track lighting is quite versatile and commonly used in galleries, retail stores and offices. Truelite offers complete track lighting solutions for different application. Truelite LED track series select high brightness COB LEDs as light source, it's designed to use aluminum reflector cup with multiple reflecting function. Our products are with good thermal performance, low power dissipation, energy saving and long lifespan. The color temperature of light source has pure white, warm white and more others for choice. Using the suitable inside constant current power supply, it's easy to install and use.

Features

- High efficiency and energy saving.
- Replacement for Halogen track Lamps.
- Long lasting and reliable.
- Anti-glare lens or reflector.
- Cost effective.
- Low electromagnetic emission.
- Compact in Size.
- Easy Installation.
- High operating temperature up to 40 degree.
- Ecofriendly, no mercury and UV.
- Unique optical design for improved beam photometry.
- High heat dissipation aluminum housing.
- CREE led.
- Modern out looking and good thermal property.
- Rotation and Tilt.
- CE, RoHS Certification.

Electrical Parameters

Input Voltage	AC 90V ~ 245 VAC
Frequency	50/60Hz
Driver Power Efficiency	>85%
Total Power Consumption	20W
Power Factor(PF)	>0.9
Color Rendering Index	>85
Color Temperature	3000-6000K
Working Ambient Temperature	-20°C To +50°C
Luminous flux	1400lm
Led Model	CREE
Beam angle	50°
Mounting	Surface/Wall/ceiling
Service Life	>50000 Hours
Light Fixture Material	Aluminium , Antiglare glass and reflector
Dimension	*185 X 160 X 105 mm

*All parameters are measured @ ambient temperature Tc 25 degree

Application Area

Products can be widely used indoors, such as brand clothing shop, supermarket, hotel, exhibition room and museums. Lights can be aimed at artwork, countertops, walls, or other room features as needed, making them infinitely useful if you like to change your furniture or artwork around from time to time.
