## WALL WASHER-SL

30W

Truelite's Wall Washer is a projection lighting fixture using high power LED as light source. Controlled by DMX system, program can be customized to realize gradual changing, chasing, blinking, random flickering, interchanging and other dynamic effects. Our Wall Washers are reliably sealed, light projection angle and position adjustable to achieve best desired effect. We carry a wide variety of 24VDC /110-240VAC LED Wall Washers for both indoor and outdoor LED Lighting projects. Select from our RGB Color Changing LED wall washers or use a single color White or Warm White LED Wall Washers.

### Features

- Truelite wall washer is using power led as their light source.
- High strength aluminium, high clearness tempered glass.
- Adjustable installation base, 180 degree rotatable in vertical direction
- Convenient for light projection angle adjustment.
- Better heat dissipation design, longer life span and stable and anti-shock.
- Variety model, low power consumption, high luminance and soft colors.
- Light projection distance over 10m, more angles for choice.
- DMX controlling system for better color changing and dimming.
- Built in power supply, convenient wiring and installation.
- IP Rank: IP65.
- Available in black and white for the light body.
- CE, RoHS certifications.

## Electrical Parameters

Input Voltage	AC 110V ~ 240 VAC
Frequency	50/60Hz
Output volt	12/24V DC
Driver Power Efficiency	> 85%
Total Power Consumption	30W
Power Factor(PF)	>0.9
Total Harmonic Distortion	< 30%
Color Rendering Index	>75
Color Temperature	4500-5000K/RGB
Beam Angle	50°
LED Luminous efficiency	85-90 lm/W
Working Ambient Temperature	-40°C To +50°C
Led Model	CREE
IP Rating	IP65
Service Life	> 50000 Hours
Light Fixture Material	Aluminum Alloy , Glass reflector
Dimension	L-1000mm,W-65mm,H-85mm

\*All parameters are measured @ ambient temperature Tc 25 degree

## Application Area

Led wall washer is mainly used for decoration and highlight in building frame, garden etc. Single building and historical buildings outdoor wall lighting and bridges; park and indoor partial lighting, Landscape lighting, Billboard lighting; medical, cultural, and other specialized facilities lighting; bars, nightclubs, dance halls, and other entertainment atmosphere lighting.
